## SHIELDS PROVES AN ADROIT WITNESS

MAKES NO DAMAGING ADMISSIONS IN THE LORIMER INVESTIGATION.

IS HINES CONFIDENTIAL AGENT

Insurance Man of Superior, Wis., Appears Before U. S. Senate Committee

Chicago, Oct. 19.—The star witness before the Lorimer investigating committee of the United States senate was Robert J. Shields of Superior, Wis., insurance man and confidential agent of Edward Hines, who had eluded process servers for several weeks during the summer.

Senators and attorneys for the committee bombarded him with questions for two hours, but were unable to elicit any admissions of improper activity in coaching witnesses whom he had produced for the Hines and Lorimer interests.

The only suggestion of the part played by Mr. Shields in election of Senator Stephenson of Wisconsin came when he admitted, in response to a question from Senator Kenyon, that he occasionally had looked out for legislative matters at Madison for Mr. Hines.

After concluding his testimony Mr. Shields left here for Milwaukee, where he expects to testify before the committee of the United States senate which is investigating the election of Senator Stephenson.

Mr. Shields proved one of the most adroit witnesses who has yet appeared before the Lorimer committee. He said he had been performing various services for Mr. Hines and for C. G. Wiehe, secretary of the Hines Lumber company, for seven or eight years.

Members of the committee were anxious to learn why an insurance agent should be selected by Mr. Hines to look up witnesses, act as a lobbyist and attend to other confidential matters, and they were more than ever puzzled when Mr. Shields said he received no remuneration above his expenses for such service.

The witness said the fire insurance business which the Harper & Shields Company handled for the various Hines lumber companies netted his firm a profit of \$20,000 a year. He said he considered it to be his duty to do whatever he could for such valuable customers.

Although he spent two months last summer in hunting Lorimer witnesses, Mr. Shields said he never had rendered a statement of his expenses to the Hines company. He said he drew drafts amounting to \$600 or \$700 on the company, which about covered his expenses.

## MISS IDA YOUNGMAN DIED SUDDENLY

WAS DAUGHTER OF MR. AND MRS. S. W. YOUNGMAN OF NACHUSA AVENUE.

Miss Ida May Youngman died suddenly at the home of her parents, Mr. and Mrs. S. W. Youngman, 715 Nachusa avenue, at 1:30 o'clock this morning, death resulting from inflammation of the stomach and bowels. The funeral arrangements will be announced later.

The death of Miss Youngman has caused a shock among all of her friends, because of its suddenness and her popularity. She had been employed at the Missman confectionery for several months, where her charming and happy personality made her a favorite with the patrons. The same qualities surrounded her with childhood and young womanhood, and the bereaved parents have the sympathy of all at this time.

The deceased was born in Dixon township April 10, 1889, and has lived in or near Dixon all her life, receiving her education in the Dixon schools and graduating from the Dixon high school with the class of 1908. She is survived and mourned by her parents, a sister, Miss Gertrude Youngman, at home, a brother, Wm. C. of Rockford, an aunt, Mrs. W. C. Jones and an uncle, W. W. Woolley, all of this city. She was a conscientious member of the Presbyterian church and took an active interest in the O. E. S., to which she also belonged.

The youngster was crawling about the floor and got hold of a can of lye which her mother had been using in housecleaning. A physician was summoned immediately and it is not thought the child was seriously burned, or that she swallowed any of the lye.

## DR. ELGIN WEBSTER KEEPS HIS NERVE

RECEIVES FEW VISITORS AND SPENDS HIS TIME PLAYING SOLITAIRE.

Reports from Oregon are to the effect that if Dr. H. E. Webster has at any time in the past commenced to falter in his unconcern of the outcome of his case, he has failed to show it, and has regained his iron nerve. He spends most of his time now playing solitaire in the cell, and receives few visitors.

In the meantime Prosecutor Emerson said Sheriff Dolaney are let the public interest in the case quiet down before continuing several investigations which they have outlined, and are devoting most of their time to the attention of matters now on trial in the Ogle county circuit court.

HANDED HIM ONE.

A hardware merchant in a neighboring town went home to supper one night and a new silver percolator was on the table. He asked his wife where she got it and she said, "Why, I selected it out of Smith's catalog, and it only cost me \$4.25 and the express." Of course the husband was mad in a minute and said, "Why in the deuce didn't you tell me you wanted the thing? I have lots of them in my store and they only cost \$3." Then his wife handed him one like this: "Well, John, if you would advertise once in a while so the people would know you were still in business, maybe the people wouldn't be sending away for so much of their stuff."

Rebels and Imperials in Undecisive Combat—Imperial Gunboats Take Refuge.

San Francisco, Oct. 19.—Cablegrams received at Chinese headquarters in this city state that the revolutionists, following a week's siege of the city of Nanking, took the first line of fortifications by assault and are now inside the walls of the city fighting the imperial garrison in a house-to-house combat. They are aided by the Chinese inhabitants of the city who, following the entrance of the revolutionists, are aiding in attacking the imperial troops.

London, Oct. 19.—An account from Hankow says that Admiral Sa Chen Ping landed 2,000 marines to reinforce General Chang Piao, who has only 1,000 strongly entrenched north of Hankow.

The revolutionaries, who have been seriously menacing Chang Piao's troops, were immediately attacked with vigor and at the same time the imperial gunboats in the Han river opened fire. Two of the imperial gunboats were badly damaged and it is reported that they are in a sinking condition. The gunboats made ineffectual reply to the firing from the shore, and as the rebel fire threatened to annihilate them they executed a dangerous maneuver and took refuge behind the foreign flotilla. In the meantime the land fighting was fierce though not decisive.

The revolutionaries made repeated attacks upon the trenches, but were repulsed each time with heavy loss. Scores of wounded were brought to Hankow and treated at the Red Cross hospital established in the foreign concessions. Hitherto the concessions have been in no danger, but as a precautionary measure landing parties have been sent ashore from foreign warships.

**Yellow Dragon Flag Absent.** Hong Kong, Oct. 19.—A feature of the celebration on the anniversary of the birthday of Confucius was the total absence of the yellow dragon flag of China. The crowd shouted repeatedly "Down with the Manchus."

**Chinese Rebellion Spreading.** Hankow, Oct. 19.—It is reported that the rebellion is spreading to Hangchow, Hsiao-Kau and elsewhere. The concessions here are prepared for emergencies.

## DR. E. A. SICKELS RETURNS FROM HUNT

FOUND BEARS SCARCE, BUT LOCATED A HOTEL WORTH FINDING.

Dr. E. A. Sickels arrived home last evening from his hunting trip in the west, chuck full of interesting accounts of the fun he had and the sights he saw. The doctor's trip was in one way a disappointment, in that an early frost, which killed the berries in the mountains, caused the bears to seek other places. Consequently the doctor was forced to seek another location. He succeeded in shooting one bear, however, the hide of which is being prepared for tanning.

The doctor is especially enthusiastic regarding an inland hotel he found in Washington, which he says is beyond all doubt the greatest in the world. The food was such that cannot be purchased in any caravan; he has ever visited, he says, and the accommodations were beyond the expectations of anyone.

# Before Allowing an Operation

## Please Read These Two Letters.

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before. Then after all that suffering Lydia E. Pinkham's Vegetable Compound restored her health.

### HERE IS HER OWN STATEMENT.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for several months without much relief, and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. To-day I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise every woman who is afflicted with any female complaint to try it."—Mrs. Orville Rock, R. R. No. 5, Paw Paw, Mich.

Rockport, Ind.—"There never was a worse case of woman's ills than mine, and I cannot begin to tell you what I suffered. For over two years I was not able to do anything. I was in bed for a month and the doctor said nothing but an operation would cure me. My father suggested Lydia E. Pinkham's Vegetable Compound; so to please him I took it, and I improved wonderfully, so I am able to travel, ride horseback, take long rides and never feel any ill effects from it. I can only ask other suffering women to give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation."—Mrs. Margaret Meredith, R. F. D. No. 3, Rockport, Ind.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## HE SAW ENRIGHT SLAY TEACH FOLLY OF BURNING STALKS

Witness Gives Damaging Testimony at Trial.

State's Star Witness Says He Saw Murder of Vincent Altman in Chicago Hotel Bar.

Chicago, Oct. 19.—Fred Irish, the state's star witness in the prosecution of Maurice ("Moss") Enright, took the witness stand in Judge McSurely's court and gave damaging testimony against the alleged slayer and leader of labor sluggers. Enright is charged with the murder of Vincent Altman in the Briggs house bar on March 22.

Irish testified that he was in the bar at the time of the murder and saw Enright commit the crime.

State's Attorney Wayman, who has personal charge of the case examined the witness for the state. Irish pointed out Enright in the court room and swore he was the man who fired the shot that killed Altman.

### MANN TALKS TO EDITORS

Says Defeat of Reciprocity Will Not Affect Print Paper Price.

Chicago, Oct. 19.—There will be no material increase in the price of print paper nor change in the importation of wood pulp for duty, according to Congressman James R. Mann in a talk given at the meeting of the Inland Daily Press association at the Hotel La Salle.

"The law stands as before," he said, "and no change will be made on the free importation of wood pulp from Canada from private forests and fields. That clause stands and it will not materially affect the price of paper unless the manufacturers arbitrarily demand an increased price."

### ILLINOIS PRESBYTERIANS

Belvidere, Ill., Oct. 19.—While a tenant was cleaning out the cellar of a house here, owned by the late John Brown, he found \$1,300 in gold and bills which he turned over to the son of Brown. The young man divided the money with his brothers and sisters. One of the brothers is Logan Brown of Peoria.

Their father died suddenly, and when stricken made an effort to tell the children about the money, but he could not speak.

### SAVE 40 FROM FIRE

An entire business block was threatened with destruction and several extra calls for engines were necessary before the flames were controlled.

She contends that Chase's second marriage is illegal. Therefore she demands all his personal property and a third of his realty.

### SLUGGERS TO PRISON

## How to Make Delicious Wholesome Griddle Cakes

The best flour, salt, milk, and most expert care, will not make really palatable Griddle Cakes if the Baking Powder is inferior. Because Calumet Baking Powder makes such tempting, wholesome, appetizing Griddle Cakes, it has become as popular for this purpose as it is for making other good things to eat.

Calumet is the highest quality Baking Powder at a moderate price. It received the highest award at World's Pure Food Exposition—passes the Pure Food Laws. Hence you are sure that food made with Calumet is pure, wholesome and health-giving.

Millions of housewives are pinning their faith to Calumet. You try it next time you bake—learn for yourself the new satisfaction.

## CALUMET BAKING POWDER

### Main Griddle Cake Recipe

One quart flour (4 cups); one teaspoon salt; 4 full cups milk and two teaspoons Calumet Baking Powder. Sift flour, Calumet Baking Powder and salt well together. Add milk, making soft batter. Bake immediately on hot griddle, well greased. When full of bubbles, turn and cook other side. Add two or three tablespoons melted butter, if richer and shorter cakes are desired. With the use of Calumet Baking Powder no eggs are required.

these things, and teach them intelligently. She should get acquainted with the things right in the neighborhood, so she can teach the children today what is coming next week. at their homes. There is enough for any teacher to have 15 or 20 minutes each day for the six year old or the 16 year old, and then finally we shall get it so that farming would be done better, and we would have better farming.

**Tenant Share Added Value of Land.**  
I believe the time will come when the tenant, instead of giving up a share of the crop, will have a part of the value of the land, if he stays there. Every year the increase in the value of the land is going to be more to us than our share of the crops, I am not a socialist, but I am fair. I would like to take some young man and put him on a farm and see what he would do. That would give the tenants an interest in bringing up the land. Their purpose now is to get every last thing they can out of the land. And it is to the detriment of the land and finally to the detriment of humanity.

**Feed Hens for Winter Eggs.**  
I would like to have the teacher trained how to feed hens so eggs wouldn't be worth 40 cents a dozen. I have 22 hens and we get 15 eggs a day. One of my tenants has over 100 and he gets six eggs a day. We want the children taught what the old man is going to do tomorrow or next week I don't want them trained scientifically.

All the teacher has to do is to translate bulletins in her own vernacular and fix up the child so he can tell his parents how to farm.—Reported by Arthur J. Bill for Illinois Farmers' Institute, Springfield, Ill.

## CASCARETTS CLEANS LIVER AND BOWELS

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Cost, Red Tongue or Constipation. Purged Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches comes from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sour and ferment like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

### Hibernation.

In the state known as "hibernation" respiration practically ceases. Digestion seems to follow respiration, and the waste of tissue is reduced to the smallest possible limit. The circulation in the meantime being only just sufficient to sustain life. It has been ascertained that animals can endure the loss of tissue until it amounts to 40 per cent of their normal weight. Should the weight be reduced beyond that limit the result is death. It is the stored up fat within the body of the hibernating creatures that sustains them during the many months of cold weather.

Come and see our crops: they are twice as good as in the county west of us, and last year we had many times the grain raised in Towner county. Our altitude and clay subsoil with shale below makes the difference. Even last year some grain crops sold for enough to pay for the land. They will do it again this year and I would not trade one quarter here for ten quarters in parts of South Dakota, where land has sold for more than the price of this and some for twice as much. **The Painter and the Cobbler.**  
The painter Apelles, who flourished in the time of Alexander, was shown a picture by an inferior artist who boasted of having sketched it out in an exceedingly short space of time. "Yes, I can see that very well," said Apelles, "but I am surprised that you did not make several other pictures exactly like this in the same space of time."

We are indebted, according to tradition, to this same Apelles for one of our common phrases. The painter had listened with patience and profit to a cobbler's criticism of the sandals in a picture. But when the cobbler began to enlarge the field of his criticism to other parts of the painting he received this rebuke from Apelles: "Shoemaker, stick to your last."

DRY MAYOR AT  
A WET CONVENTIONMAYOR BENNETT OF ROCKFORD  
GAME IN WELCOMING BAR  
TENDERS.

Mayor Bennett of Rockford, an out and out anti-saloon man, was called upon to deliver an address of welcome before the bartenders convention held there last week. When Mr. Bennett was a candidate for mayor he used as a slogan in his platform that he promised to be mayor of all Rockford. Bearing in mind that statement, he could not excuse himself from appearing at the convention after having been asked several weeks prior to its convening, to give the welcome address. The mayor did not flinch from duty, and neither did he offer flattery to the saloon men. He said:

"To You Men in Convention Assembled: Rockford welcomes you for the good you may derive from being associated with liberty-loving, God-fearing, law-abiding people. To those of my friends and others who are interested in my appearance this morning, let it be known that I am not going to attempt any political gymnastics, though I am a so-called dry man. I shall not try to carry water on both shoulders, nor ride horses that are going in opposite directions.

"When the president of the local organization, my old school-boy friend, Josh Brady, asked me some time ago to address you, I accepted because it was up to me to make good on my campaign platform to be mayor of all Rockford.

"We are all of us so much creatures of environment and our acts are so largely caused by circumstances outside of ourselves that it is not for us to criticize individuals and the discussion of principles may be left till a later time, for 'There is so much good in the worst of us and so much bad in the best of us, that it hardly behooves any of us to talk about the rest of us.'

"There is every indication now that you have brought a return of sunshine and good weather to our city, which I assure you we appreciate. You will find Rockford one great park. Here we have no so-called poor or slum district. I commend to you a study of our city that is equally divided by Rock river, the most beautiful stream this side of the Hudson. Rockford has the proud distinction of being the city where more of its citizens own their own homes than any other city in the United States. I cordially invite you to study our city and its advantages, to visit our city hall and the various departments of city activities, believing that when you have returned home you will feel that your visit to Rockford has been one of real pleasure and profit."

SUICIDE CLOSES  
TRAGEDY-ROMANCENEGRO HUSBAND OF WEALTHY  
KANE COUNTY GIRL SUICIDES IN CHICAGO.

Kane county's most sensational tragedy-romance reached its climax Monday night with the suicide of Grant Shopman, 24 years old, colored, in Chicago. Shopman was the negro husband of Grace Green, the daughter of Mr. and Mrs. Clarence S. Green of Elburn and grand daughter of Jacob Gorham, millionaire and pioneer resident of St. Charles.

Shopman's suicide at the Oakley avenue station of the Chicago & Oak Park railroad Monday closed a romance which startled all northern Illinois, brought tragic social ostracism to a wealthy, beautiful girl and was marked by dramatic domestic fidelity.

All Elburn is wondering whether or not the former belle of the town will return to her parents' home, be forgiven and attempt to live down the scandal of her marriage to a negro elevator man. The suicide of the negro set the whole village talking, reviving the story of the girl's marriage and her subsequent troubles.

Shopman swallowed carbolic acid. His wife declares she knows no reason for the act.

COLLEGE PREPARING  
FOR SATURDAY GAMEDIXON FOOTBALL TEAM WILL  
PLAY DEKALB NORMAL  
TEAM.

The Dixon college football squad will be given a shake-up this week in an effort to secure a back field for the game with DeKalb Normal on Saturday. It was proven in last Saturday's game at Rochelle that the Dixon forwards can produce a defense which will hold any team on the Black and Gold schedule, but yet there is lots for them to learn, especially on the offense. Dixon looked weak on the forward pass by which Rochelle secured their score, but this was largely due to weakness of the back field defense. Final, although a marked man on the college eleven, must be criticised for inability to nail the runner. Another weakness on the offense was the poor passing by Raphael on the punt formations. When Dixon had secured their two touchdowns it was clearly shown that they were satisfied as they relied chiefly on kicking after that and kept in the opponents' 40 yard line for the remainder of the contest.

Krum, who has been playing end in the past games, will be shifted back to the back field and Muhlenberg will be put at end in his place.

Reports come from DeKalb that the Normal eleven has the best team in the school's history, which is saying quite a little as the Red and Black always has a strong aggregation.

Football interest in Dixon is at its height and from all indications a large attendance will be on hand to witness the contest. Dixon is just beginning to realize that the college has a good team and this is appreciated very much by the faculty as well as the student body. Manager Gannon is contemplating a game with a good school for a Thanksgiving date at home.

## WHY ISN'T HOUSE-CLEANING

Time the best to fix up the beds for winter?

**HORSE LEAPED FROM****STAGE AT DAVENPORT**

Davenport, Oct. 17.—A flurry of excitement was occasioned at Sunday afternoon's performance at the American, when one of Joe's White-Avest act reared off the stage and landed on the main floor in the audience. The musicians ducked under the orchestra pit and escaped. Several seats were demolished, and a young lady knocked down and her face was bruised. She was taken to her home by Manager Berkell in an automobile. Otherwise no one was injured.

It was almost a miracle that no one was killed or even seriously injured. The rider clung to the horse and held it in check after it had landed on the main floor. The audience was quickly quieted, the horse led down the main aisle and out into the street and the show continued as if nothing had happened.

**STOLEN GRIPS RECOVERED.**

Notice was made in this paper of

the disappearance of two grips from the Galt House in Sterling on Tuesday. The grips belonged to a Washington, D. C., attorney and contained beside his personal belongings important papers in a case upon which he was working. Later in the day the grips were found on the porch of Ryan's hotel in Sterling. The attorney had left the city, but was notified and will return to claim his property. It is thought that someone interested in the case followed the attorney and watching his chance secured the grips and extracted the papers he wanted.

**MILK TRUST IN****FREERPORT BUSTED**

The milk dealers in Freerport have reduced the price of milk from 7 to 6 cents a quart. Several months ago they held a meeting and boosted the price to 7 cents, but jealousy crept into the ranks of the dealers and the organization busted.

**LOCAL WHITE SOX****FANS CELEBRATED**

A large number of local White Sox fans celebrated in fitting style last evening over the victory of their team, which took the city championship from the Cubs with four straight victories. Considerable money changed hands here, especially on yesterday's game, it being believed by many fans that the National leaguers would at least take one game.

**FOR GOOD ROADS, TOO.**

One good thing leads to another. The bankers of Illinois having gone in for improved farming methods, find themselves considering the subject of better highways. Of what avail will it be to raise bigger and better crops, they ask, unless the farmers have improved facilities for marketing them?

There can be but one reply. It finds expression in resolutions adopted by the bankers yesterday, in which they put themselves on record as active recruits to the good

roads army. They pledge themselves to the cause, and take the necessary preliminaries for co-operating with the Good Roads Association.

The bankers can felicitate themselves on this additional evidence of their progressive spirit. The good roads folks can thank their lucky stars for the impetus which has been given their movement, and the state of Illinois—well, the State of Illinois has congratulations coming to her.

**WET AND DRY AGREE**

The dries say there is more liquor sold in wet territory, and that there is the most crime, poverty and irreligion. The wets say there is more liquor sold in dry territory and that it is there that there is the most crime, poverty and irreligion.

So we see that the wets and dries disagree as to where the most honor is sold, but they agree that wherever it is, it's the place where is the most crime, poverty and irreligion.—Catholic Abstainer.

**DEMENT TOWN DOINGS**

The poor old Cubs—and that old reputation.

Chicago, 8 p. m., Oct. 18.—Special to The Doings—Eli Rosenthal, Dix on's greatest Cub fan, has been trying to engage an airship to take him home, so he can be dropped into his accustomed haunts without being noticed. At last reports Eli hadn't yet found the airship, and he is dubious about going home at all.

Val Heft, the young man who fiddles so sweetly, has taken up another branch of industry. It is said the "Perfesser" is going into the cattle business, having made several bids on three year old steers at a recent sale, the bids being about 7.60 for the whole cow.

The kangaroo is a good jumper, but it's our impression that the best kangaroo in the country could never jump as high or as often as dressed beef from the butchers.

When a looking glass falls and breaks it's a sign of hard luck, especially if it has a heavy frame and hits you on the bean.

The more we see of automobile chauffeurs, the more we think old Darwin was right.

It must be pretty tough for the navy officials, after spending four million bucks for a battleship to find it's four years behind the style when completed.

Our Ave. mayor remarked that it isn't always the thumbmarked cool book that makes the best meal.

D'you ever notice that when a man strikes out with the bases full very few people praise the pitcher, but the batter gets all the comment that's coming?

**According to Uncle Abner.**

I have heard of one or two feller: who would rather be right than president, but I have heard of a blamed sight more who would rather be wrong than vice president.

When I see a milliner's upper lip all black I make up my mind there has been some drummer along with a dyed mustache.

It seems as though everyone in our neighborhood enjoys a funeral except the late defunk.

Scripture says a hoos is a vain thing for safety but by gravity I think afloatnoble a blame slight valner.

I see a eastern scientist says ambition is an unyielding desire to keep diggin'. A lot of folks around here have been afflicted that way but they all thought they had shingles.

A good many fellers that get tired it for industry by plowin' up their back gardens are only looking for gale worms.

Why in tunket are they called angle worms when they only move in curves?

Whenever I hear a feller constantly referred to as a good man I always wonder what he is good for, but nobody seems to know.

There's only one way to take down a stovepipe without gettin' soot or the carpet and that is to take up the carpet fust.

Elmer Hicks says he is goin' to get a job workin' at the plumber's trade. By jing! I didn't think anybody worked at that.

About this time every year I go an' look at some feller that chaws ter backer and I find that I've got one thing to be thankful for, anyhow.

Putty soon it will be time for all of us to borrow a dollar or two and give somebody we don't care anything about a present that he don't want.

There's a good deal in knowin' how to wear clothes. Some fellers can put on a \$7 hand-me-down suit and make a noise like a member of the Four Hundred while others can wear a \$100 broadcloth and be picked up by the police for havin' no visible means of support.

An army of Cub fans in this city are praying that that new \$1,500,000 hospital for "bats" will not be located in this city.

**ROCHELLE BUYS A MOTOR FIRE TRUCK**

At a meeting of the Rochelle city council Monday evening it was decided to purchase a combination chemical engine and hose motor car with standard equipments of the American-La France Fire Engine Co., of Elmira, N. Y. The machine will be delivered within 90 days and costs \$5,500.

Among the equipments to the car will be two hand chemical tanks of 5 gallons each and one 40 gallon tank and 200 feet of hose.

The car will carry 1500 feet of hose, ladders sufficient to reach the top of any building in that city and all of the tools required for fire fighting.

**7,081,869 FOLKS LIVE IN CANADA**

Official Figures Announced by Cabinet Minister.

**HIGHER TOTAL WAS HOPED FOR**

Political Effect of the Count Will Be to Increase Parliamentary Representation of West and Decrease that of East.

Ottawa, Ont., Oct. 19.—The Canadian census figures are complete with the exception of a few unimportant districts.

They have been announced by the minister of agriculture and are a great disappointment, as the total population, which is given as 7,081,869, is a million less than was expected and confidently claimed during the last few years. The population of Canada by the census of 1901 was 5,371,315.

The result will have far reaching political effect by increasing the representation of the west in parliament and decreasing the representation of the east.

The population of some of the principal cities and their gains are as follows:

Montreal	468,197	gain,	198,467
Quebec	78,067	gain,	9,227
Toronto	356,241	gain,	167,200
Winnipeg	135,430	gain,	93,090
Vancouver	100,333	gain,	73,323
Victoria	31,620	gain,	10,084
Regina	30,210	gain,	27,961
Saskatoon	12,002	gain,	11,889
Moose Jaw	13,824	gain,	12,266
Ottawa	86,340	gain,	26,412

**SEEK MURDERER OF FIVE**

Ex-Convict Is Suspected of Family's Deaths for Revenge.

Ellsworth, Kan., Oct. 19.—County authorities began a search for Charles Maryzek, an ex-convict, in connection with the murder here of William Showman and wife and their three children. Gov. W. R. Stubbs has offered a \$500 reward for the slayer.

Maryzek was released from the penitentiary a year ago after serving a sentence for stealing wheat from a farmer by whom he was employed. Maryzek's former wife is a sister of Mrs. Showman. She is said to have made a statement to the authorities that testimony by Mr. and Mrs. Showman was largely responsible for Maryzek's conviction and that before he went to prison he had sworn vengeance.

**TOBACCO TRUST RECEIVER**

Lawyers for Independent Company Urge Complete Dissolution.

New York, Oct. 19.—The United States circuit court will be asked to exercise its alternative in the tobacco trust case, order a complete dissolution of the American Tobacco company and appoint a receiver therefor according to announcement made by Charles R. Carruth, counsel for R. P. Richardson Jr. & Co., one of the defendants in the original federal anti-trust suit.

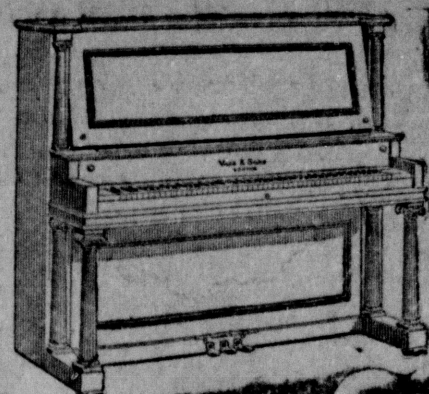

Felix Levy and Louis D. Brandeis of counsel for the independents, filed a petition with the circuit court, asking leave to intervene in the proceedings.

**POTHIER IS RENOMINATED**

Republicans of Rhode Island Put Up a State Ticket.

Providence, R. I., Oct. 19.—The Republican state convention nominated this ticket: Governor, A. J. Pothier, of Woonsocket; lieutenant governor, Z. W. Bliss, of Cranston; secretary of state, F. F. Parker, of Providence; attorney general, Herbert A. Rice, of Providence; general treasurer, W. A. Read, of Glocester.

The platform reaffirms the principles of the Republican party in advocacy of a protective tariff, indorses the policies and administration of President Taft and urges his re-nomination.

## INTERSECTIONAL FOOTBALL GAMES

Crack Eastern and Western Teams to Clash on Gridiron.

MICHIGAN VS. PENNSYLVANIA.

Elvens of Two Universities to Renew Annual Relations in Ann Arbor, Nov. 4—Wolverines Will Also Play Syracuse—Cornell to Tackle Chicago.

By TOMMY CLARK.  
Restricted by the rules of their organization to a limited number of games each year, the conference elvens of the middle west and the University of Michigan, once a vastly honored and respected member of that select coterie, pry open their football seasons a week later than the eastern teams of the same general ranking.

Before Michigan was forced to seek worthy opponents in other parts of the land by refusing to abide by some of the rules and regulations which other members of the conference sought to impose upon the Wolverines there was not a great deal of interest taken in the western games in the east.  
But when Chicago, following Michigan's example of playing a representative eastern team, added Cornell to her schedule interest in the conference and Michigan games increased wonderfully. There had always been a tendency in the east to take it for granted that the western games were inferior to those played in the east, though the problem had never been worked out on the field.

A series of Pennsylvania successes over Michigan tended to strengthen this belief. In 1909, however, the Wolverines won and last year held the

Photos by American Press Association.  
CAPTAINS OF THE PENN. CORNELL AND CHICAGO ELEVENS.

Quakers, admittedly one of the most powerful and versatile elvens in the east, to a no score tie.

Intersectional battles have become more popular and carry added interest. This season more than any previous year the schedule provided a lot of it. Beginning with a game against Syracuse on Nov. 4, Michigan has three successive Saturdays filled with eastern opposition.

Syracuse plays at Ann Arbor on the first Saturday of the month; the Wolverines visit the east to tackle Cornell at Ithaca, N. Y., on the 11th, and a week following are at home to Pennsylvania in what has come to be the biggest game of the year for both teams.  
Playing Cornell and Pennsylvania on successive Saturdays, Michigan so fits into the schedule that it should be possible to get a very fair line on the comparative abilities of the east and west through these two games. It is unfortunate that Penn does not play Yale, Harvard or Princeton, but the Quakers do play Brown, a common opponent of Harvard and Yale.

Cornell's game at Chicago, sandwiched in between the Cornell-Michigan and Penn-Michigan engagements, may also help the students of comparative scores. This battle does not rank with the classics as the Penn-Michigan does, but it serves each year as an additional means of lining up the representative elvens of the two sections.

## FELT HIS PRESENCE.

Curious Instance of Telepathy Described by John Muir.

John Muir, in his book, "My First Summer in the Sierras," relates a curious instance of telepathy. He spent the summer of 1893 in the beautiful wilderness around the Yosemite valley. One day he was busily sketching on the North Dome, when suddenly he became possessed with the notion that his friend Professor J. D. Butler of the University of Wisconsin was below him in the valley. He jumped up, full of the idea of meeting him, being almost as much startled as if some one had unexpectedly touched him and made him look up. Instantly he went running down the slope and along the brink of the valley, looking for a way to the bottom, feeling drawn irresistibly.

Gradually his common sense convinced him that he could not possibly reach the hotel until after everybody would be asleep for the night. He therefore compelled himself to stop, but the next day he went into the valley and found that Professor Butler had arrived the evening before, unexpected by anybody. He had been four or five miles distant at the moment when Mr. Muir was so suddenly apprised of his presence.

"He had just entered the valley by way of the Coulterville trail," says the author, "and was coming past El Capitan when his presence struck me. Had he then looked toward the North Dome with a good glass he might have seen me jump up from my work and run toward him. This seems the one well defined marvel of my life of the kind called supernatural."

## RESURRECTION PLANT.

It Comes to Life, After Drying Up, if Plunged into Water.

One of the most extraordinary plants in the world is undoubtedly that known to botanists as Anastatica, commonly called the Resurrection plant or occasionally the Rose of Jericho. It is an annual inhabiting the Egyptian desert. It is so highly hygrometric that when fully developed it contracts its rigid branches so as to constitute a ball. Exposed then to the action of the wind it is blown hither and thither toward the sea, when it is gathered and exported to Europe.

If then, when apparently dead and dried up, its root is plunged into water, the buds swell with new life and leaves of its calyx open, the petals unfold, the flower stalk grows and the full blown flowers appear as if by magic. When removed from the water the plant returns to its original apparently dead condition until again placed in water; hence, its title of the Resurrection plant.

There are many superstitions tales concerning this so called rose afloat in the east. It is said to have first bloomed on Christmas eve and continued to flower till Easter, at its birth heralding the advent of the Redeemer, and immediately before his departure honoring his resurrection.—T. P.'s London Weekly.

## The Range of Vision.

Data have been gathered in Germany with reference to the distance at which persons may be recognized by their faces and figures. If one has good eyes, the Germans claim, one cannot recognize a person whom he has seen but once before at a greater distance than twenty-five meters (eighty-two feet). If the person is well known to one, one may recognize him at from fifty to a hundred meters, and if it is a member of one's family, even at 150 meters. The whites of the eyes may be seen at from twenty-seven to twenty-eight meters and the eyes themselves at seventy-two to seventy-three meters. The different parts of the body and the slightest movements are distinguishable at ninety-one meters. The limbs show at 182 meters. At 540 meters a moving man appears only as an indeterminate form, and at 720 meters (2,361.6 feet) the movements of the body are no longer visible.—Scientific American.

## Friends.

Put your heart into the search for a friend, freely offer assistance to any of the crowd who needs it, and, sooner or later, you will find a hand outstretched toward yours, and your soul will meet its likeness. Do not imitate those who, shut up in their individuality as in a citadel, indifferent to all passers by, yet send forth on the four winds of heaven the melancholy cry, "There are no friends!" They do exist, be sure of it, but only for those who seek, for those deeply interested in the search and for those who do not remain content to spin out the thread of life in a corner, like a spider's web, intended to catch happiness.

## Halleck and Drake.

Fitz Greene Halleck, the poet and author of "Marco Bozzaris," who died in 1867, is buried in the Halleck family plot in the Alderbrook cemetery at Winsted, Conn. The body of his friend, Joseph Rodman Drake, the author of "The American Flag," rests in the old Hunt burying ground in Bronx borough, New York city, now known as Drake's park.—Magazine of American History.

## M'NAMARA CASE FIGHT

Counsel in Wrangle over Com-  
petency of Jurors.

Defense Plan to Contend that Los An-  
geles Times Building Was  
Blown Up by Gas.

Los Angeles, Cal., Oct. 19.—After ly-  
ing quiet for two days the first big  
issue in the McNamara murder trial  
poked its head up again and began to  
make trouble. The defense and the  
state clashed twice, two jurors were  
challenged and the court reserved its  
decision.

All this difficulty arose from the con-  
tention of the defense that a man who  
believes the Los Angeles Times build-  
ing was dynamited Oct. 1, 1910, is not  
a competent juror.

"If a talesman believes the building  
was blown up by gas he certainly be-  
lieves the defendant not guilty," said  
District Attorney Fredericks. "On  
the other hand, if he believes the  
building was dynamited he still has  
expressed no belief as to the guilt or  
innocence of the defendant."  
It was said on good authority that  
James B. McNamara probably would  
never go on the witness stand. The  
hint of Attorney Darrow in court that  
the defendant could sit mute while the  
prosecution attempted to show the  
building was blown up by dynamite,  
is held to be a forecast of the plans  
of the defense to stand pat on the  
theory that the Times disaster was  
caused by gas and that the defendan  
knew nothing of it.

Excursion Boat Burns.  
Saugatuck, Mich., Oct. 19.—The  
steamer Arundell, owned by the Crawford  
Transportation company, burned  
here. The boat is a complete loss.  
During the excursion season the boat  
carried passengers between Chicago,  
Grand Haven and other Lake Michi-  
gan ports.

## TAFT WILL SET MILEAGE RECORD

Adds Eighteen Days' Travel to  
Present Tour.

## INCLUDES FIVE MORE STATES

Executive Decides to Visit Virginia,  
West Virginia, Ohio, Tennessee and  
Kentucky Before Returning to  
Washington About Nov. 10.

Butte, Mont., Oct. 19. — President  
Taft will set a new mileage record for  
a presidential trip before he returns  
to Washington.

To the 13,000 miles of the present  
schedule Mr. Taft has decided to add  
some eighteen days of travel. The  
addition to the itinerary includes a  
day in West Virginia, four days at  
Hot Springs, Va., for a rest, two or  
three days at his home in Cincinnati,  
and a tour through Kentucky and Ten-  
nessee, with probably a stop in Vir-  
ginia on the way to Washington. This  
will delay the president's return to  
Washington nearly three weeks, bring-  
ing him to the White House about  
Nov. 10, a little more than two weeks  
before the opening of the regular ses-  
sion of congress.

In that time he will have to prepare  
his usual message on departmental  
and other government affairs for con-  
gress, draw his plans for tariff re-  
vision on the report of the tariff board  
on schedule K, which is to be ready  
for congress upon its convening, and  
put his house in order generally for  
the arduous work of the coming ses-  
sion.

The tour of Kentucky and Tennes-  
see was contemplated when the itine-  
rary for the present trip was under  
consideration. The lateness of the ad-  
journment of congress last summer,  
however, forced the president to short-  
en his trip; also, he was advised by  
Henry Watterson of Kentucky to post-  
pone his trip to Kentucky until after the  
election there in November, lest his  
visit might be construed by the  
Democrats to mean an interference in  
state politics.

The president arrived at Butte,  
Mont., at about 10 o'clock. Stops of  
a few minutes each were made at  
Ogden, Logan and Brigham City, Utah,  
where the president made short talks  
to the crowds who welcomed him.  
Most of the route has lain over the  
great brush and cactus lands of Nevada  
and Utah. The railroad officials  
placed some of the members of the  
president's party in the engine cab in  
the trip through the "devil's play-  
ground" and the funeral range in the  
Mojave desert.

Sentence for Evelyn A. See.  
Chicago, Oct. 19. — Evelyn Arthur  
See, "apostle" of the absolute life,  
convicted of having abducted Mildred  
Bridges, will appear before Judge  
Lockwood Monday to receive a  
sentence of one to ten years in the  
state penitentiary at Joliet.
